

2020 OPEN-WHEELS 500 MEMO VETERANS 100 DW-12 PACKAGE TEST

TO: Veterans 100 Participants and Other Interested Teams

FROM: Open-Wheels Motorsports Sanctioning

DATE: October 16, 2020

RE: 2020 Veterans 100 Testing Package

Good morning teams,

We are happy to announce this morning a test session scheduled for Wednesday, October 21 that will serve as a trial run for our new Veterans 100 race package. As an individual who indicated their intent to run in the 2020 Veterans 100 race, you are receiving this memo as an invitation to the test.

The session will be scheduled by Jeff Drake in the Hosted Sessions section of iRacing, and will go live at approximately 9:00 PM Eastern on Wednesday, October 21. The weather conditions and time of day will mimic the conditions forecasted for the Veterans 100 race on Saturday, November 14.

The car being tested on Wednesday is the Dallara DW-12. OWMS will observe a new package developed specifically for the DW-12 in an attempt to more closely mimic the speeds of the current-generation Indy Lights chassis as well as the handling and passing characteristics normally exhibited in the Freedom 100 race each May.

We strongly encourage you to participate in this test session if you are able to be present, as it will give us the best opportunity to decide on using the 2019 Veterans 100 package (with the Formula Renault 3.5) or the newly-developed Dallara DW-12 package for this year's race.

Individuals with questions may contact Tanner Watkins at Tanner@Open-Wheels.com, via Discord, or by iRacing PM.
